

**LA STORIA SENZA
REDENZIONE**
Giuseppe Lupo
Rubbettino
281 pagine
18 euro

Giuseppe Lupo is an intellectual who has long been tenaciously involved in Italian literary dynamics. A southern author, from an equally tenacious South, he is, however, aware of the fact that "La storia senza redenzione" (History without redemption) is that of a South which, at a cultural level, has elaborated ideas and thought structures but has eluded the realistic and concrete aspect at the level of actual proposals, including political ones. It is as if the intellectuals of the South, with a few exceptions, have not believed in the potential of history, preferring only denunciation or the vision of utopia. A journey through the lands of the South, its places, its protagonists.
